12/2/2020 LDH is reporting 3,604 new cases, including a backlog of 1,551 cases with collection dates going back to April. Not re-allocated. The changes since 11-30 make the entire previous LDH positivity rate inaccurate.																				
Region 3 Note 11-30-20 - In an effort to right-size the cases to match the state's LDH website, Region 3 INCLUDED the PROBABLE cases in the total cases – This data change will throw the LDH note 12-1-20. Due to a recent processing error, some COVID-19 data that was reported in the past is now being removed from the website. This data change will throw the LDH note 12-1-20. Due to a recent processing error, some COVID-19 data that was reported in the past is now being removed from the website.
